

# The NESARA/GESARA Brief

The National Economic Security & Reformation Act is an act that was passed by the United States Congress on March 9, 2000 and then sent to President Bill Clinton for his signature. President Clinton signed NESARA into law on October 10, 2000.

To hide NESARA from public view and, thus, to prevent its enforcement by popular demand, the United States Supreme Court placed a gag order on anyone who knew about NESARA and disclose to the public.

So why sign it into force in the first place?

Clinton reportedly signed under gunpoint by the military, similar to King John's situation at Runnymede signing the Magna Carta in 1215. Signing with the knowledge that the Federal Reserve Cabal runs the government and they would never allow this existential threat see the light of day.

So what does this dangerous act consist of?

Well, it involves the destruction of the Federal Reserve Central Banking System and its henchmen, the IRS, returning the prosperity to the people instead of the parasitical banking cabal.

This is good news to everyone except the so-called 1%.

## Features

# History

1970s – The Federal Land Bank illegally foreclosed on farmers mortgages all throughout the Midwest with the backing of the Federal Reserve System.

In one case Roy Schwasinger, Jr. was left a farm in his father's will. Soon after, the bank informed him they were foreclosing on his farm, ordering him to vacate within 30 days. A stipulation in the mortgage reverted the property back to the Federal Land Bank in the event of the borrower's death. Outraged, Roy E. Schwasinger, Jr. filed an unsuccessful lawsuit, prompting him to investigate the inner workings of the banking system.

This led to class action lawsuits from claimants including farmers, Ranchers and Indians swindled by the banks.

Come the 90s The U.S. Supreme Court Justices ruled that the Farmers Union claims were indeed valid, therefore, all property foreclosed by the Farmers Credit System was illegal. In addition, they ruled that the U.S. federal government and banks had also defrauded all U.S. citizens, out of vast sums of money and property.

1991 – Roy Schwasinger went before a senate committee to present evidence, including breach of the 14th amendment, section 4 of the constitution, that the bank's and government's criminal activity. He informed them how the Corporation of the United States was tied to the establishment of a New World Order which would bring about a fascist one world government ruled by the international bankers.

1992 - In August 1992 A task force of US military officers confronted President Bush and demanded he sign an agreement that he would return the United States to constitutional law and ordered him to never use the term New World Order again. Bush pretended to cooperate but secretly planned to bring about the New World Order anyway by signing an Executive Order on December 25, 1992, that would have indefinitely closed all banks giving Bush an excuse to declare martial law.

Under the chaos of martial law, Bush intended to install a new constitution which would have kept everyone currently in office in their same position for 25 years and it would have removed all rights to elect new officials. The military intervened and stopped Bush from signing that Executive order.

1998 – The military generals who originally participated in the famer's claim process realized that the US Supreme Court justices had no intentions of implementing the Accords. So they decided the only way to implement the reformations was through a law passed by congress. The National Economic Security and Reformation Act (NESARA) was submitted to congress where it sat dormant for almost a year.

2000 – Late one evening on March 9, 2000, a written quorum call was hand-delivered by Delta Force and Navy SEALs to 15 members of the US Senate

and the US House who were sponsors and co-sponsors of NESARA. They were immediately escorted by the Delta Force and Navy SEALs to their respective voting chambers where they passed the National Economic Security and Reformation Act.

October 10, 2000, under orders from U.S. military generals, the elite Naval Seals and Delta Force stormed the White House and under gunpoint forced Bill Clinton to sign NESARA. During this time Secret Service and White House security personnel were ordered to stand down, and allowed to witness this event under a gag order.

Eighteen months later the Supreme Court justices ordered Congress to pass resolutions approving NESARA. Alan Greenspan was scheduled to announce the new US Treasury Bank system on September 11, 2001, at 10 AM, debt forgiveness for all U.S. citizens, and abolishment of the IRS as the first part of the public announcements of NESARA.

At 9 AM, 1 hour before the scheduled announcement, the World Trade Center collapsed killing almost 3000 people and NESARA at birth.

The New World Order and its Federal Reserve resumed business with tighter restrictions on humanity via the PATRIOT Act and the endless War on Terror. Bush Jr and Obama sat on NESARA over the early 2000s slowly working their Agenda 21 plan towards a One World Government.

2016 Trump won the US election promising to "Drain the Swamp" delivering a fatal blow to the New World Order's Democratic party led plans.

2019 Worth a mention is October's Event 201 simulation exercise on Virus Pandemic preparedness and response just three months before a coincidental outbreak leaked from a research lab in Wuhan, China, because it allows the following chain of events for implementing NESARA if not directly, piecemeal over the rest of Trump's tenure.

March 18th 2020 after declaring a State of Emergency for Covid19 response, Trump invokes the Defense Production Act, effectively stealing any agenda the New World Order had for their Great Reset planned via the World Economic Forum bringing in an excessively monitored Cashless Society: a technocratic slave state.

March 28th 2020 Under the powers of the Defense Production Act The Federal Reserve is taken from the banking cartel and into the Treasury with hardly a murmur from the mainstream media.

As of September 2020, elements of NESARA appear to be quietly being rolled out and we should be alert to evidence as it emerges over time.

# Metamorphosis of Banking

What went before was essentially a century of crime. A cartel of bankers coerced Woodrow Wilson into signing the Federal Reserve Act to allow private bankers to control and issue the National Currency and on the 23rd December 1913 as the house was winding down for Christmas. A small group of power hungry families now held entirely the mechanism of wealth.

In 1971 the US finally killed off the Gold Standard, allowing currencies to find their own valuation under Government fiat (and manipulation). The ensuing Fractional Reserve system and loaning unbacked currency at interest to nations perpetuated inflation as the money supply diluted currency's value over time.

This system, dependent on growth in a world of finite resources, logically has a breaking point, which we saw in the 2008 Credit Crunch and the bailout heist where the banks stole the wealth of the citizens for their own benefit while blaming the Mortgage industry. This should have been the death of the monetary system or at least the final indicator that collapse was imminent. The bankers would need another system soon since this one had no legs to limp on much further.

12 years later, the World Economic Forum (WEF) outlines The Great Reset under the raging furor of the dubious Covid19 pandemic. In contrast to NESARA which distributes global wealth for the good of the planet, the Great Reset promises a cashless Digital Currency under a centrally controlled Global Technocracy which maintains power for its controllers. The glossy presentations conceal a model where the citizen exists under the umbrella and grace of a single global government. Given that psychopaths gravitate to positions of power and control, psychopaths are your likely masters under a single technocracy: your life essentially dependent on the wishes of people focussed on their own interests. What do they want? Smaller populations? More wealth? More control?...

Their Achilles heel in their plan turned out to be Donald J. Trump and his team of patriots who'd shocked the world in 2016 by winning the US election. The bankers had lost the security of having their man, Hillary Clinton in office for the security of their plan but had to carry on with it anyway.

Ironically, The Covid19 crisis, which provided the foundation to bring in the WEF Great Reset, Provided the conditions for the President to enact emergency measures with the Defense Production Act which enables the ability to implement NESARA.

With the banker's own fake news channels (the Mainstream Media) relentlessly bombarding Trump, they will not disclose NESARA to the public so we won't know whether NESARA is genuine or not until it is delivered through another trusted channel. What is for sure is the old monetary system is dead and we get either the WEF model or NESARA. Either way it is time to stand up for what we want.

# GESARA

The global implementation of NESARA... Once NESARA has been rolled out in the US GESARA will follow for the whole of humanity.

## How is NESARA/GESARA Going to Work?

The Quantum Financial System (QFS) is an artificial intelligence (AI) encrypted computer system that replaces the middle-men bankers and the opportunity for corruption. The old SWIFT transfer system that enabled bankers to play with the funds and charges you a fee for the pleasure is replaced at least initially by the crypto currency XRP which operates faster and cheaper than Bitcoin.

Currencies will be backed by gold which provides global currency stability. For instance, the old british "Pound" originally meant a pound in weight of Gold or Silver depending on the history book you read - so was in fact a receipt for the real value stored elsewhere. Think of it like this: Nation A uses a currency named Kilo and Nation 2 uses a currency named Pound. The exchange rate is 2.2 Pounds to 1 Kilo... for both weight and for currency... the relative scales should never change as gold is gold wherever you are.

## What's in it Us?

It's been reported that Trump has contacted all nations and territories with the GESARA proposal and 209 have already signed up potentially sidelining their central banks. If true, this means we are already in a transition stage. Why would a nation sign up? The prospects of a Central Banking system with the WEF Great Reset foundering on the rocks would leave a nation adrift in global trade. Meanwhile, GESARA reclaims and releases the hoarded wealth of the New World Order for the nation's use, which leaves two choices: a place at the table of abundance or completely locked out of the room...

Once agreed, then a stipulation in GESARA says that any act of war means expulsion from the system, therefore incentivises global peace instead of war.

Whereas, war ensured huge profits for Nations and Corporations under the Central Banking system and its administrators. GESARA inverts that vested interest.

# Who Pays?

If a currency is going to be backed by gold at least two things need establishing: the gold reserves and a revaluation. We have three sources: registered gold, unregistered gold and unmined gold. It's been reported that huge stocks under the Vatican have already been seized along with hidden stashes from the Cabal families. Reports so far are sketchy and unverified but as the old order falls and loses power, stolen stocks will become more accessible if not already seized.

## What GESARA Means for Humanity

### Short Term

Mortgages and credit accounts start to be zeroed. Medical expenses and medicine prices should fall. The CARES Act bridges across to transition the Covid19 lockdown into what's been called "The New Normal," not the new normal that was intended by the New World Order but the one intended by NESARA all those years ago.

By the time NESARA emerges, it might not share that name but the elements of the original act should be recognisable.

### Long Term

World peace and the end of poverty. With the war profit removed and hoarded wealth released into the open, we effectively purge a gigantic financial parasite and enjoy the full rewards of our creative energy. In a world of abundance, we can focus on our talents rather than financially fighting for food, shelter and scratching around to pay the bills. Crime should fall too when we have our basic needs met. Without the dependency of the Cabal to keep us in fear and divided, we revert to our innate state of generosity and friendliness toward each other.

Beyond the relief of financial pressure, what could be in the 6000 patents withheld from the public under the guise of national security? Free energy. Anti Gravity. Sonic Healing. Cures for a multitude of chronic illnesses.

With no more roads because of Anti Gravity and Free Energy, we could possibly go anywhere on the planet and into Outer Space. Sound implausible? Possibly but there is no denying that over 100 years of patents have been hidden because they challenge the monopolies that the Cabal have nurtured over that time. What could be in them? Only 25 years ago, I wouldn't have dreamt the existence of a touch screen pocket computer linked to a global network. Imagine what Military specification technology lies hidden.

# Proof

To be clear, we aren't going to see much evidence on CNN or the BBC since the New World Order (victims) own all those channels. Even Twitter, Facebook, Youtube and even Google are stepping up censorship of any anti NWO agenda topics, so we are only able to use discernment and looking at the big picture. On its own, NESARA looks too good to be true and far from any reality we have ever seen. So taking a broader view, what do we have?:

1. NESARA/GESARA requires that the Federal Reserve be taken into the US Treasury. This has already been done as of 28th March 2020
2. Balances start to be zeroed during beta testing. There is anecdotal evidence over social media... it's something to look out for.

I saw a post about it a year or so ago. I researched it a bit and the told Trump I'm praying for that. So I did.  
My home was paid off in July.  
I started digging. But I knew.  
I have a " friend " who said this was NESARA. When your home is bought out you owe no payments.

5. Military action is halted. No new wars have started in the last four years.

6. QFS Mentioned in a Government Document “NOTICE OF DEFICIT DUE TO BRACKET RE-ADJUSTMENT Regarding Mexico - USA International Settlement”

The last attempt of defeating the NWO's Federal Reserve was with JF Kennedy's Executive Order 11110 in 1963 to revert the US Dollar to US Treasury Bills backed by silver. We all know what happened to him.

As of September 2020, it's difficult to 100% confirm how much is true without reliable reporting. Insiders are bound by non-disclosure agreements and the Cabal's MSM aren't interested in empowering the people. Just stay vigilant and spot the leaks clues. It doesn't matter how much you know, NESARA/GESARA either arrives or it doesn't but the signs are looking good.

## Prep and Protect

Fiat currency is doomed so it's not a good idea to hold your savings in cash, especially in banks which can close down any minute. I'm not a financial advisor and all that disclaimer stuff. I'm just saying what I've done or would do. NESARA/QFS will be gold backed so the obvious store of value would be gold. Silver is good too. More risky would be popular, high capitalisation crypto currencies that have liquidity. It's no good buying a cheap low cap crypto that doubles its value if you can't sell or trade out of it.

Bitcoin is the original grandfather of cryptocurrencies often regarded as "Crypto Gold" in the online communities and is the easiest to exchange into cash via sites like Localbitcoins, Paxful and BISQ etc.

Since the Quantum Financial System is said to be using the XRP crypto currency, as the large Banking Companies already do for inter-bank transfers, this might be a good store during the transition but nobody knows for certain.

Do your own research and make your own decisions. Buy things that hold value. It could be that the dollar survives into revaluation into NESARA but its not guaranteed. Banks have a habit of stealing wealth so best have something independent and physical that you can trade.

## Summarizing

A financial reset is happening. Whether you think the Covid19 pandemic is real or not, it provides the perfect cover for both NESARA and Klaus Shwabb's digital technocracy. The signs are that humanity is winning but the Oligarchs still possess powerful and secret tools to steal the world back. They won against JFK's challenge and won again with the 9/11 event.

This time, we have the internet uniting everybody, we have Q dropping insider clues, uniting an army of independent digital journalists picking up the slack from the MSM propagandists, We have President Donald J Trump taking action like no other president has ever done before ip against a centuries long banking cabal cornered and in its death throes. Once this beast is defeated, NESARA/GESARA promises a thousand years of peace fulfilling many ancient prophecies. Some say these times are Biblical...
